Resource Tree For Distributors

EVALUATING SCALPEL BLADE REMOVERS

Value Analysis Calculator

Provides cost estimates for commercially available devices based on the facility's needs. A personalised report is generated based on the facility's calculations and can be used during value analysis committee discussions.

Available in 'Evaluating Scalpel Blade Removers' section of the Digital Platform or at www.qlicksmart.com/value-analysis-calculator

Product Trial Forms and Resources

Facilitates product trials with minimal to no disruption. The Term Sheet helps to plan for the evaluation and the Evaluation Forms compare the facilities current sharps safety practises with Qlicksmart's range of single-handed scalpel blade removers.

Available in the 'Evaluating Scalpel Blade Removers' section of the Digital Platform.

SHARPS SAFETY TRAINING

Training App

Provides comprehensive and accessible medical device training through interactive modules for teaching and assessing.

Available on the Apple App Store and Google Play Store.
www.qlicksmart.com/qlicksmart-app/

'How to Use' Materials

Video and illustrated resources demonstrate how to use and care for Qlicksmart products.

Available to distributors in the Smartstream Distributor Portal.
www.smartstream.com.au/distributor-portal/

Educational Materials

Informed by clinical data and focus group testing, Qlicksmart offers articles and webinars to enhance current education programs, for students' introduction to safety concepts, and to provide purchasing departments with background information on regulatory and clinical safety requirements.

Available in the 'Sharps Safety Training' section of the Digital Platform or at www.qlicksmart.com/qlicksmart-learning

IMPLEMENTING SHARPS SAFETY

5 Step Plan to Improve Sharps Safety

With guidance, the implementation plan focuses on the benefits of safety, and the action that needs to be taken to improve sharps safety in a facility with safety devices.

Available for download in the 'Implementing Sharps Safety' section of the Digital Platform.

Safety Score Card

Helps measure clinician's engagement with sharps safety programs, and assist with standardisation of device purchasing.

Available for download in the 'Implementing Sharps Safety' section of the Digital Platform.
